INSURGENCY BOILED DOWN.

Here is the product when the insurgency doctrine comes out of the reduction works. It is the program of the insurgents as announced by Victor Minsack of Kansas, thus:

"First—Revision of the tariff, schedule by schedule. Second—House rules changed by taking appointment of committees out of the hands of the speaker. Third—Physical valuation of the railroads. Fourth—Simplification of the procedure of federal courts. Fifth—Direct primaries." And that is all that the fuss is about!

There is nothing really fundamental in the whole list. The first proposition is easier uttered than it will be to carry out. Open the tariff at any point, and you let air—hot air, too—into the whole of it. Besides, it is hard to repress a conviction that a piecemeal revision of the tariff could not possibly be "scientific"—to use a favorite word of the single schedule revision doctrinaires. A tariff commission ought to be a good thing—President Taft thinks it will—but imagine a tariff commission tackling only one schedule at a time, and making an exclusive report thereupon. Congress would be inflicted with a never-ending series of tariff reports. It would be like what the census has come to be—an everlasting nuisance and bill of expense.

Number 2 is merely a choice between optional modes of parliamentary procedure made in England. It is just now a method of decanonizing the house of representatives, and it might have been suggested by the action of the Honolulu board of supervisors in refusing to accept committees of Mayor Fern's appointment. If the house would rule itself it can try the experiment at any time, but there will be danger of its becoming unruly, like it was before giving itself into Tom Reed's charge.

Students of the subject outside of Congress believe that the third proposal is impracticable. Nobody seems to know exactly what physical valuation of the railroads means, or what good it would do, anyway.

Probably there is not a man, woman or child in the United States—barring perhaps some lawyers and litigious folk standing to profit by the law's delays—who will object to simplification of the procedure of federal courts. The fourth proposition is therefore not particularly insurgent.

Direct primaries, the fifth article of insurgent stage property, had better be left with the states where they belong.

Insurgency bodes ill for Hawaii. A detail of its tariff dogma is liable, as sure as anything else, to mean the abolition of protection to sugar. It is amazing that there should be any exhibition of sympathy here for the falsely named progressive faction, composed of politicians making a noise with stolen thunder. From Roosevelt down they are sounding the loud timbrel to tunes set by William Jennings Bryan for his own more melodious voice. The only notes lacking are those written on the sixteen to one scale for the now discarded silver cornet.

Commenting on the remark of a Washington correspondent that "whatever else may be said of the administration of President Taft, it has been a respecter of the Constitution and of the legislation enacted by Congress, the New Bedford Standard says, "An administration which respects the Constitution and obeys the laws is the sort of administration the country most needs."

It has taken many years to bring to a head a scheme for enabling small farmers to find profitable markets for their products here and on the mainland. Growers of fruit and vegetables have often been urged to cooperate for the purposes of adopting the best methods of packing and shipping and of securing trustworthy sales agencies. Now that the matter has been taken up as one for government action, through a legislative commission, there is reason to hope that diversified agriculture will soon be placed on a satisfactory basis. The scheme is all the more promising from its inclusion of transportation among the problems to be solved.

It is rather late in the day for the Advertiser to try to make the proposed food protection ordinance an issue in the present campaign. There is only one meeting of the board of supervisors, and that a semi-special one at which there will not likely be a full attendance, before election day. According to the usual course of bills, if the ordinance should be submitted at that meeting, no vote on its merits would be taken then. In the meantime the Republicans may take what advantage there may be in the fact that a Republican member of the board has drafted the ordinance, and is now awaiting the usual scrutiny of the draft by the attorney's department to introduce it. The Advertiser, however, has done its worst by denying even this small credit to the Republican party.

Roosevelt's support of Lodge is only what should have been expected of a normal politician. Himself the original standpatter of his times, Roosevelt throughout his administration shied at tariff revision.

GOVERNMENT LAND SOLD AT AUCTION

At twelve o'clock today, Marston Campbell offered the following lands and lease for sale on the steps of the Capitol building:

(1) Government remnant situated at Alewa Heights, Honolulu, Oahu, containing 51,350 square feet, more or less. Upset price, \$200.

(2) Government remnant at Kumu-piki, Koolapoko, Oahu, containing 0.50 acre, more or less. Upset price \$65.

A general lease of all those portions of lots F and G, Waiakahu, Koolapoko, Oahu, containing an area of 9.63 acres, more or less. Upset price \$151 per annum; payable semi-annually in advance. Term of lease, 5 years from July 1, 1911.

The bidding in no instance was at all spirited, only one offer being made on each occasion. The first piece was sold to Mr. Love for \$201. The second piece was sold to Henry Peters for \$66. The sale of this second piece created a lot of amusement, which was quickly explained by the statement that Link McCandless owns all the land adjoining this strip. It is but a small piece of half an acre wide, with a fifty-six feet frontage. The joke is said to be on Link now, because to make his lands complete it will be desirable to acquire this strip, and it is understood that the purchaser is not in a hurry to sell, as he considers that he has struck a bargain. The sale of the lease of the third lot was effected to C. Lai Young at \$152 a year.

CLARK CASE GOES OVER

Henry N. Clark was again before Judge Cooper this morning in connection with the charges of having embezzled the sums of \$228 and \$105, the property of the District Court of Honolulu.

Attorney Hittings appeared for Clark and asked that the case be continued until October 31, owing to the departure yesterday of Attorney Frank Thompson, who had been retained to represent Clark. The request was granted, and Clark will come up for plea on that date.

3 p. m., will be the opening of Kewalo Mission.

6:30, Y. P. S. C. E., Miss Lizzie Webster, president. Subject—"The Chances We Miss." Gal. 6:1-10.

7:30, sermon. Subject—"The Destiny of Egypt." All are welcome.

"WITCHING HOUR" PLEASES AGAIN

A well-filled house greeted last night's production of "The Witching Hour," and the performance was thoroughly appreciated by the audience. George Howard, as Jack Brookfield, was the central figure, and he repeated the previous night's success in this character. He is well-supported by his company, every member of which played his or her part in an excellent manner. Robert McKim, as Tom Denning being particularly good. As the dissolute wealthy youth he was splendid, especially in the scene where he tantalized the hysterical boy, Clay Whipple (James B. Norton). Whipple's portrayal of a timid youth seemed a trifle exaggerated, although some allowance was made for what seemed to be gross cowardice, when it was learnt that he had inherited a horrible, unaccountable dread of cat's eye stones. Mr. Oliver D. Bailey seemed to be handicapped by his voice, or apparently he is under the impression that a husky voice has to go with each character. The stage conception of certain characters is frequently at variance with the reality.

"The Witching Hour" will be staged again this afternoon and evening. At the matinee, it is notified, any seat in the house may be procured for twenty-five cents.

On Monday evening "Christopher Jr." will be played. This is a comedy and theater patrons are promised a treat in this line.

CHEMISTS TO DINE

Invitations have been issued for the third annual dinner of the Hawaiian Chemists' Association which will be served in the spacious dining hall at the Seaside Hotel on Monday evening. The annual dinners have been a great success in the past but this year will prove no exception to the rule. An elaborate menu has been prepared and it is said that a committee has been appointed to see that no article of food be allowed on the festive board unless it complies strictly with the food and drug act and is guaranteed C. Short Miles

A drive of five to fifteen miles in a spring wagon eats up time and takes a horse away from work. The same distance is a joke to a man on an R-S Motorcycle.

Right now there are a hundred uses for a fly-about vehicle on your farm. The

R-S Motorcycle

is the solution. Easy to buy—easy to run—goes like the wind. The R-S motor is the most powerful and reliable engine found in any motorcycle.

If you are at all interested in motorcycles come and see the R-S demonstrated. Let us tell you about the new one piece cylinder and explosion head which means a lighter, cooler, stronger motor. The new R-S rotary mechanical oiler—perfect lubrication with heavy or light oils; the R-S combination fuel tank—fuel and oil for 200 miles; the new R-S single float carburetor—perfect mixture at all speeds. Your interest will not commit you to buying. We are glad to show this machine to every one.
